

Thanks for applying Pemanon to ILLUSION's topsides. She looks great! The owner turned up just after you left and that was the first thing he commented on! The treatment from last fall helped immensely in keeping the yacht clean all winter long while docked in the Port of Miami which is a sooty place. I am confident that the second application will perform just as well this summer in New England.

The PS paste cleaned up the inflatable tender beautifully, just as you promised. I was amazed that such a small amount of product, very little water and almost no elbow grease did the job so effectively. **Other products don't compare!** I used the remaining amount to clean brake dust off the wheels of my car. Nothing else had been able to get the stubborn stains off, now the wheels look new again. Please add me to you list of satisfied customers,

**I'm sold on Permanon products.**

Sincerely,  
Capt. Van Noorden  
S/Y ILLUSION
